

SHEFFIELD LOCAL MEDICAL COMMITTEE

NEWSFLASH

GP COMMISSIONING POLL

INITIAL RESULTS

MAY 2011

The initial results of Sheffield LMC's GP Commissioning Poll were formally presented at the LMC meeting on Monday 9 May 2011.

The results available at the link below are presented as pie charts and bar charts, showing citywide responses and responses by consortia. The overall response rate is also shown by contractual type, as suggested by the committee.

Analysis of the free text parts of the poll are ongoing and will be published in due course. This further analysis will not alter the initial results.

Some practices in the Central Consortium replied to the poll, confirming that they would not be completing the poll. There was some difficulty in deciding whether this constituted a response or non-response. Therefore, these doctors have been classed as 'Central Stance'.

A copy of the initial results can be downloaded from the *Facts & Information* section of the LMC website at:
