Resilience, transformation, at scale working  
(£883k)\*

\* Ringfenced despite £21m QIPP

## Prioritised and Progressed By

- Resilience proformas submitted as part of (LCS)
- Identify the full resilience/sustainability issues
- How the key challenges can be tackled and supported next year and beyond – GPSMs supporting priority practices
- How skills can be developed to support service delivery in the future (practice, neighbourhood, locality and city level).
- Support developing strategies and implementation plans, eg workforce and training

# GPFV - This Time Next Year

- All practices will have had opportunity to:
  - Engage with PGP
  - Implementation of data coding offer level 1, 2 and 3
  - Care Navigation training and implementation
  - Identify and act upon practice resilience issues
  - Have clinical pharmacist support
  - Utilise technology to supporting effective working
  - Understand the workforce of the future opportunities
  - Be clear on the way forward re premises development
  - Strengthen their neighbourhood and at scale way of working
