GP PARTNER THE SPRINGS MEDICAL PARTNERSHIP

Clowne, Derbyshire

6 to 8 sessions per week
Start date: negotiable

We tick all the usual boxes in terms of QoF, modern premises, being forward thinking etc. But here's where we're different - we talk to each other - a lot!!

Do you want to be part of a close knit team who support and encourage each other? Where outside interests are encouraged and where our skill mix is a tool shared by all?

We are an experienced, established team and the Practice is run by a 6 strong Management Team. Our personalities are all very different but this makes for interesting conversations and a strong, cohesive team that works.

Our list size is 11,145, we are a training practice, we play an active role in our PCN, we have a GP team of 9, we have a full complement of Nursing and Administrative staff including a Care Coordinator and Community Matron team and we aim to be the best we absolutely can be. We have a short meeting every day to advise, support, make decisions - or discuss what we watched on TV last night.

Covid-19 has certainly made us question how we work and our use of IT based solutions - video consultations, telephone consultations, Microsoft Team meetings - is increasing all the time.

We are now looking for a new Partner due to the retirement in June 2023 of our senior partner who has been with the Practice for over 22 years. We want someone who is keen and enthusiastic, who is prepared to challenge and prepared to push boundaries.

Is that you?

Informal enquiries and visits welcome.

For more information or to apply for the position please contact our Practice Manager, Janina Gawel on 01246 819047 or email nina.gawel@nhs.net.

Closing date: 4 September 2022.

**SALARIED GP
UPPERTHORPE MEDICAL CENTRE**
(branch site - Ecclesall Medical Centre)

Permanent post
Sessions: 4-8 (negotiable)

An exciting opportunity has arisen for a Salaried GP to join our friendly, supportive 2 site practice in Sheffield, with a view to potential partnership. We are proud to serve the Uppertorpe and Ecclesall communities and to be active members of the City Centre and Sheffield Hallam University PCN.

You would be joining a team of 5 partners, 2 salaried GPs, 2 Physician Associates, 2 Nurse Practitioners and a Clinical Pharmacist, all of whom value collaborative working, support each other to provide high quality patient care and encourage getting the right work-life balance. There is a mixture of experienced and newer partners making this a great place to work whether newly qualified or more experienced.

We are keen to work as a team and have monthly practice meetings at both sites and regular clinical meetings to aid learning. We have medical student placements/group teaching. We are currently in the process of applying to become a training practice with an aim for the first GP trainee to start in February 2023.

Our 4 Practice Nurses, 2 HCAs and experienced administrative and reception teams all pride themselves on providing a caring service and welcoming environment for our patients. We work closely with other organisations and have a physiotherapist, mental health worker and health visitors all providing services from our practice. We also value close links with local charities and have a social prescriber based at the Practice one day per week.

Our patient list is around 12,600 with the numbers split almost equally between Uppertorpe and Ecclesall. Serving 2 communities enables the staff to gain a greater understanding of the diverse health needs across the city and provides variety and development opportunities. Our Uppertorpe practice is a purpose built medical centre whilst our Ecclesall site is a partner owned converted house. Our staff have often commented on how much they enjoy serving both communities and the experiences and opportunities generated by working across 2 sites. However, we recognise that for some staff who are working a shorter number of days, being based primarily at 1 site is more practical and so are willing to consider this and to give a choice of location.

This post would be suitable for a GP of any experience to thrive in. We are looking for a friendly, enthusiastic and committed doctor to complement our existing team.

- Salary negotiable;
- NHS Pension Scheme;
- GMS Practice;
- High QOF achievers;
- 2 site practice in Sheffield 6 and Sheffield 11;
- SystemOne clinical system;
- Offering extended access;
- Aspiring Training Practice (currently medical students only).

PCS manages the Clover Group, which deliver 7 Practices in Sheffield. The Clover Group Practices are looking for a GP who has an interest in Geriatric Medicine. We manage Care Home beds but also Intermediate Care beds in the City. We'd also be interested in improving our services for our geriatric patients who remain in their own homes and so this role provides an exciting opportunity to develop new service and delivery models.

We have been working to explore portfolio careers for GPs and now have opportunities added onto traditional GP sessions to create your perfect role. **GP TUTORS
MBCHB PHASE ONE – COMMUNITY ATTACHMENT SCHEME**

We are looking for GP tutors at GP practices from the Sheffield and Rotherham area to teach on the Community Attachment Scheme, which starts in October. We have 2 tutors per group, a GP and a Behavioural Scientist.

In terms of time commitment you will have 2 groups, of 8-10 students and the sessional rate for GP tutors is £220 per group.

Each group meets 3 times between October and February / March. The tutorials are held in the evening, for 2 hours, at rooms in the Medical School or other university buildings on central campus. The students are provided with the dates for the first 2 tutorials, which we expect to be held during the weeks beginning 10 and 17 October. Dates for the second and third tutorials are discussed during the first tutorial, so the students have the dates in their calendar.

The dates for the first tutorials are confirmed in September.

You will be required to find 8 patients from your practice who are either: pregnant or have a chronic disease or disability. If pregnant women are recruited you will need to ensure that students will have the opportunity to meet the women both before and after the birth.

Prior to the pandemic, students visited their assigned patient in their own home. However, we appreciate that some patients may prefer to have a remote visit with their student, either by telephone or video so we are taking a patient-preference approach for the coming year when it comes to the visits. Students will be given guidance if this is the case.

If you would like further information or to discuss this in more detail, please contact Brigitte Delaney, Study Manager, IMP2ART Study Associate Teacher on b.delaney@sheffield.ac.uk.
