SALARIED GP – 5 SESSIONS BURNGREAVE SURGERY

A fantastic opportunity has arisen, due to retirement, for a salaried GP to join our friendly, enthusiastic and forward-looking team at Burngreave Surgery. Currently, we are specifically looking for someone to do a role which is split between core clinical general practice and care homes. At present there is one session of care home work available but due to changes anticipated early next year, the proportion of care home work would increase to two or more sessions so an interest and confidence, or developing confidence, in frailty and end of life care is vital.

List size around 8000 patients. We serve an inner city, ethnically diverse population with many patients born outside the UK including a sizeable proportion of refugees. Our patients are resourceful, but the health needs are high. At present we also have a smaller branch surgery at Herries Road which is open on 4 mornings a week. We are committed to delivering high quality patient care in a challenging environment. Over the last few years, we have strived to have community languages on reception.

We are entering an exciting time of change. We will be moving to a new publicly owned building in the spring. Currently being built, it is sited on Spital Street and is built to high environmental standards. The practice will be the largest tenant occupying the first floor whilst the ground floor will have much needed shared bookable space for the network and local community. At the time of moving our branch surgery at Herries Road will close but we are expecting an overall expansion of the list around the time of moving. Our training capacity is currently limited by space but we are intending to train GP registrars once settled in new build.

We aim to support and nurture the skills and development of our staff. We are a welcoming team and try and look after each other with good working relationships across administrative and clinical staff. We know that everyone on the team has a vital part to play. Regular refreshments provided during clinic. We have a sociable staff room with a supply of fresh fruit and there is chat and company at lunch on most days. Being very central, the practice is easy to reach on bike, foot or by public transport.

Our core clinical team currently consists of 4 GP partners, 4 salaried GPs, 1 FY2 resident doctor, 2 Advanced Nurse Practitioners, 2 Practice nurses, 2 Health Care Assistants, 2 Pharmacists, a social prescriber and a visiting Physio.

We also host student nurses on placement and medical students with an interest in working in a “Deep End” area or in the Greener Practice initiative.

Other Key information

- Sessional rate around £11,700
- We hold a sponsor licence for Tier 2 applicants
- PMS practice
- High QOF achievement
- System One clinical system
- Regular clinical and practice meetings
- Onsite Community Nurses/Counsellors/IAPT/Health Trainer/ Community Support Worker.

- Actively involved in Neighbourhood working through the Foundry PCN

To apply, please send your CV and covering letter to lisa.platts@nhs.net
