LEAD GP AND/OR GP WITH INTEREST QUALITY IMPROVEMENT PCS HAROLD STREET PRACTICE

From 2-8 sessions

Competitive salary + additional Medicaash policy

Primary Care Sheffield (PCS) is a GP-led organisation. Our shareholders are 73 GP practices in Sheffield covering over half a million patients.

PCS manages 8 practices in Sheffield, with our newest addition being Harold Street. Harold Street is a small practice with a family feel in the Upperthorpe area of Sheffield. Due to circumstances, the practice had been left without clinical leadership for some time, prior to our takeover. The patient demographic is currently mainly Arabic, however with the city centre expansion this is likely to change. The practice list is 2,500 patients which means you will be on site without a peer at points but will always have the support from the wider PCS teams. You will have peer support from 30 other GP colleagues and leadership from the practices Clinical Director, ACP Lead and Clinical Nurse Manager. There is also support from the PCS wider team members such as the Medical Director, Management and HR teams.

The PCS Practices are looking for a GP who has an interest in making change for the benefit of patients. We want to overhaul the service on offer, modernise processes and systems and focus upon quality improvements. You will be supported to do this, but you need to be someone who enjoys making change.

The ideal candidate will relish the challenge of modernising general practice, have an interest in improving quality, communicating with patients, clinicians and working within a growing organisation.

Do you have drive, ambition and the commitment to fulfil the needs of our patients? If yes, we would like to hear from you. In exchange we offer a competitive employment package, access to NHS pension, medicash policy and mentorship for career development and progression.

Please note if you are interested in the GP Lead role you would need to be able to work at least 5 sessions including a Wednesday morning to enable attendance at our Senior Management Team meetings. The Lead role attracts additional financial recompense. We are also open to those who want to explore portfolio career in our wider PCS services.

If you would like to know more, please contact lynsey.hughes@nhs.net for confidential discussion and an informal visit.

**TRIAGE GP, ACP, PARAMEDIC, PA, ANP OR NURSES
INITIALLY DARNALL BUT EVENTUALLY FLEXIBILITY TO WORK REMOTELY**

From 2-8 sessions

Competitive salary + additional Medicash policy

Primary Care Sheffield (PCS) is a GP-led organisation. Our shareholders are 73 GP practices in Sheffield covering over half a million patients.

PCS manages 8 practices in Sheffield and are currently moving forward with plans to move to a group total triage model. We are planning to implement Anima and are looking for clinicians who would like to work as part of a triage team. The triage team will work on the Anima system and make decisions on when and by whom the patient should be treated based upon data gathered from patients using standard questioning. When working in the triage team you will have limited F2F/telephone contact with patients and usually won't be expected to deal with paperwork. However, you will be working as part of a small team and therefore will have the opportunity to explore cases and develop the processes. To ensure variety, candidates also have the opportunity to work as a clinician in one of our practices as well.

PAs will be asked to attend a preceptorship programme for 1 session if working on a Thursdays.

The ideal candidates will relish the challenge of modernising general practice, have reasonable IT skills, an interest in improving quality and working within a growing organisation.

In exchange we offer a competitive employment package, access to NHS pension, medicash policy and mentorship for career development and progression.

We are also open to those who want to explore portfolio career in our wider PCS services.
